

Good Afternoon Sagar

Maddren Homes experience with Jetset kitchens has been great over the past 5 years since we have been using them. They are not our only kitchen supplier but would do approximately 15 to 20 a year for us. Always can be trustworthy to times and dates. The quality of the kitchens for what you pay these days is very good. Workmanship is pretty good also. Maintenance, well they are the first to respond every time. Overall, they are very user friendly for clients and good at accommodating client demands. They have a good attitude, good production and good values within their team. I like their attitude and presentation and ability to think and act calm when under pressure. To be honest they are reliable positive and execute well for all difficult tasks that come across. They work quite closely with us when under pressure to meet our demands. For any further information you require please don't hesitate to call me.

Kind Regards
Tony Anderson
